

INDUSTRIAL FORKLIFT TIRES

Available in resilient, solid, non-marking or pneumatic, the Dawg Pound Tires Material Handling line features a comprehensive range of sizes, tread patterns and compounds. Functional and versatile, these tires are designed to handle the most demanding industrial applications.

TUFF DAWG

FORKLIFT

Montacargas

The Tuff Dawg is a premium, proven design tire and the tread design has become industry standard. This high quality, industrial lug tire features a flat tread profile for optimum traction and fortified center bar and under tread for greater durability. The Tuff Dawg is full-depth, full width, has standard OD's and is available in a range of sizes and ply options.

- **Tire with Tube & Flap**

El Tuff Dawg es un neumático premium de pared extra, y el diseño de la banda de rodamiento se ha convertido en estándar de la industria. Este neumático de gajos industriales, de alta calidad, ofrece un perfil de banda de rodamiento plano para tracción óptima y barra central fortificada, así como construcción debajo de la banda de rodamiento para máxima durabilidad. El Tuff Dawg es de profundidad completa, ancho completo, tiene un DE estándar y está disponible en una variedad de tamaños y opciones de capas.

- **Neumático con cámara y camisa**
